3,000 AMP LITHIUM JUMP STARTER

- Safe on engines of any size
- Recommended for engines up to 9.0L gas & 7.0L diesel cars, trucks, boats & more
- Rated at 3,000 amps
- Spark-proof connections and reverse polarity protection
- Recharges USB devices, like smartphones, tablets, and more
- Power 12V devices anywhere, like tire inflators, power inverters, and more
- 500 lumen LED flashlight with multiple modes, including SOS
- Provides up to 80 jump starts on a single charge
- Holds its charge level for over a year with minimal power loss
- Built-in digital voltmeter to determine if the battery is discharged or there is another cause

MRT-233-1

SUPERSOX HD100 SERIES

EXTRA SPIKE TRACTION
Tungsten steel spikes grab the ice around corners as well as starting and stopping. Spikes also offer superior traction on packed snow.

EASY INSTALLATION
Intuitive design is really as simple as slipping the SuperSox halfway over the tire, and then moving forward half a tire distance and slipping the rest on the tire to finish.

TRACTION PADS FOR LONGER
Fabric and traction pads work together to add significant traction and stability to the overall performance of these SuperSox.

TIRE SIZES (PARTIAL LIST)	# PADS	WEIGHT/PAIR	ITEM NUMBER

CHAIN REQUIREMENTS

- Driving axle
- Non-driving axle
- Wheel with chains or ATD
- Wheel with no chains or ATD
- ◆ Drive axle must be chained

Chain-up diagram meets all state MINIMUM requirements. Always check local DOT for rules of compliance.

PEERLESS
A KITCO GROUP COMPANY

GUIDELINES FOR MAXIMUM CHAIN LIFE:

- Avoid bare pavement and speeds over 30 mph. Chain links on cross members will be damaged and cause cross members to break. Damage could occur to chains, tires and vehicles
- Avoid spinning tires: start slowly, even in uphill conditions
- Avoid locking brakes: the best braking technique is a pumping action
- If a cross member should break, stop & remove or replace it immediately
- After use, clean and spray with an all-purpose lubricant

CAUTION! ALL WINTER TRACTION PRODUCTS WILL WEAR OUT WITH EXTENDED USE. THEY CAN ALSO BREAK DUE TO MISFIT, MISAPPLICATION OR MISUSE. IF THIS SHOULD OCCUR, STOP IMMEDIATELY AND REMOVE THE CHAIN. IF THESE CAUTIONS ARE IGNORED, PEERLESS AND ITS DISTRIBUTORS ARE NOT RESPONSIBLE FOR INJURY OR VEHICLE DAMAGE.

AUTOS / PICKUPS

BUSES / RECREATIONAL VEHICLES
(Articulated buses must also chain outside wheels of last axle.)

SNOW PLOW LIGHTS

EW4008 SERIES | LED DOT WORKLIGHTS

- High beam / low beam / indicator / marker
- DOT certified
- Low beam: 1,600 lumens
- High beam: 2,400 lumens
- Unique aluminum heatsink housing design for maximum heat management
- UV stabilized polycarbonate lens and reflector optics

\$379.99 kit
ECC-EW4008

EW4009 SERIES | HEATED LED DOT WORKLIGHTS

- High beam / low beam / indicator / marker
- DOT certified
- Low beam: 1,000 lumens
- High beam: 1,600 lumens
- Unique aluminum heatsink housing design for maximum heat management
- UV stabilized polycarbonate lens and reflector optics

\$599.99 kit
ECC-EW4009

EW4011 SERIES | HEATED LED SNOWPLOW WORKLIGHT

- High beam / low beam / indicator / marker
- DOT certified
- Low beam: 905 lumens
- High beam: 2,371 lumens
- Dual options for bottom and back mounting
- Multi-directional mounting for signal light (left / right / top)
- Flush mount lens to alleviate snow buildup

\$649.99 kit
ECC-EW4011

DIRECTIONAL LEDS

3511 SERIES | SAE CLASS I

- (12) high intensity LEDs
- 36 flash patterns
- Colorless when not illuminated
- 1.1" H x 3.3" W x 0.5" D
- 12-24 volts, 1.4 amps

MANY OTHER APPLICATIONS AVAILABLE!

Zerostart engine block / coolant heaters provide direct heat to the engine coolant or block, designed and tested for individual engine applications.

- Ensure quick winter starts, reduce engine wear
- Highest rated, most efficient type of heater
- Direct oem replacement for many applications
- Replacement cordsets available

AIR BRAKE PRODUCTS

GENUINE OE AIR TREATMENT SYSTEM COMPONENTS

Reduced emissions, improved energy efficiency, increased safety and driver comfort are forcing the trucking industry to adapt to an increasingly complex array of advanced technologies. Many of these technologies utilize compressed air supplied and controlled by the vehicle's braking system - including advanced Exhaust Gas Recirculation (EGR), Selective Catalytic Reduction (SCR), Diesel Particulate Filters (DPF), Automated Manual Transmission (AMT) and Driver Assistance Systems (DAS). As complexity rises, so does the pressure to protect your investment.

Oil Coalescing Technology

FIRST PHASE

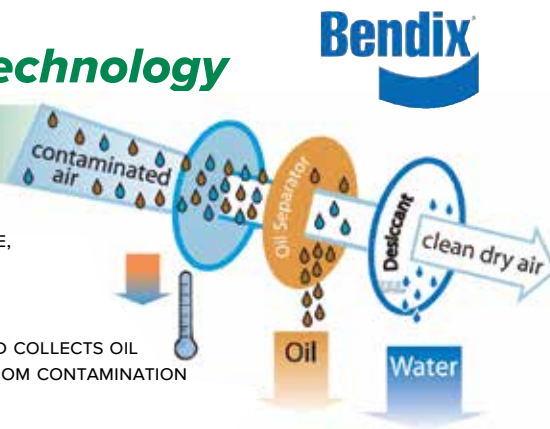

SKIN COOLING - LOWERS THE TEMPERATURE, CONVERTING AEROSOLS TO LIQUID

SECOND PHASE

PURAGUARD® TREATMENT - COALESCES AND COLLECTS OIL PARTICLES, PROTECTING THE DESSICANT FROM CONTAMINATION

THIRD PHASE

RECYCLABLE DESSICANT REMOVES MOISTURE BY ABSORPTION

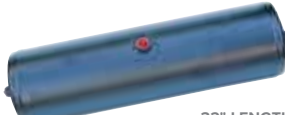

WHEN AIR CONTAMINATED WITH OIL IS SENT INTO THESE SYSTEMS, YOU RISK CONSIDERABLY SHORTENING ITS LIFE AND POSSIBLY SPENDING A GREAT DEAL FOR REPAIRS.

TRACTOR VALVES

AIR GOVERNOR

- Automatically controls the air pressure in the air supply system between the desired predetermined maximum and minimum pressures
- Direct compressor or remote mount
- 1/8-27 NPT ports (unless noted)
- .336 diameter mounting holes
- Cut-in pressure: 105 psi nominal
- Cut-out pressure: 130 psi nominal

\$22.99 ea
MID-KN18530

TRACTOR DASH CONTROL

- Engineering Grade Composite (EGC)
- One piece housing
- Ports have molded identification
- Completely serviceable

\$289.99 ea
MID-KN20619

TRACTOR PROTECTION VALVE

- Manifold style
- Can replace up to four valves on competitive systems

\$180.59 ea
MID-KN34110

HEIGHT CONTROL

HEIGHT CONTROL VALVE

- 1/8" NPT ports
- Does not respond to short duration dynamic changes in axle position, thus reducing air consumption which extends compressor life and saves fuel

\$76.99 ea
MID-90054007

PR PLUS HEIGHT CONTROL VALVE

- Normally open dump valve
- Provides precise adjustment to ride height variation
- Arm: 7" fixed
- Non-time delay valve
- Tight dead zone

CUSTOM MOLDED HD FLOOR MATS

Minimizer uses cutting edge technology to scan the interior measurements and angles of the cab of each make and model offered to ensure an exact fit.

The Minimizer Tray System was designed to be removed easily for quick cleaning. The textured surface ensures a solid grip and they will not break or crack under extreme conditions. Made from a proprietary thermoplastic, they are designed to hold up to the daily abuse of the heavy-duty trucking industry.

All backed by a Lifetime Manufacturers Warranty.

Talk to your Outside Parts Sales representative for more information! ?MIN-10002

MINIMIZER'S CUSTOM MOLDED FLOOR MATS ARE AVAILABLE FOR SELECT MODELS IN THE FOLLOWING MAKES:

VOLVO, MACK, FREIGHTLINER, WESTERN STAR, PETERBILT, CATERPILLAR, INTERNATIONAL, KENWORTH, AND STERLING

HEAVY-DUTY KEROSENE FORCED AIR HEATERS

Incorporating advanced electronic technology, quality construction and a dose of common sense, these heavy-duty workhorses present you one of the best values ever for big job heating needs. DuraHeat's modern design provides features usually only found on more expensive models, while providing superior dependability.

FEATURES

- On / Off power switch
- Built-in easy-to-read "run time" fuel gauge
- LED power / diagnostics lamp
- Flame out shut-off
- Overheat shut-off
- More "BTU's" than most competitors comparative models
- All steel cabinet and fuel tank
- Large capacity fan motors provide superior air flow volume

INSTANT HEAT

Just add fuel...plug them in...they're ready to go!
(Some assembly required on large models)

RSG...READY, START, GO

Ready, Start, Go technology provides fast, dependable performance

DUAL HEAT

Select models allow user set-back of BTU output, conserving fuel and extending operating time

PERFECT FOR...

Construction sites, garages, agricultural areas, equipment barns, concrete work, warehouses

LARGE CAPACITY FUEL TANKS

Provide a full working day of heat on just one tankful

80,000 BTU'S

- Heating area: 1,800 sq. ft.
- Air Flow: 265 CFM
- Ready, Set, Go one-touch electric starting
- Built-in thermostat
- Runtime fuel gauge, digital diagnostics and temp indicator
- Requires 120v power source

IN STOCK AND READY TO SHIP!

\$299.99^{ea}
DH-DFA80T

UPGRADE TO THE COMMERCIAL SERIES (for models DFA135C, DFA180CV and DFA220CV)

LAVA HAND CLEANER

Effectively cut through grease, grime, oil, paint, ink, and glue with this Lava pumice-powered heavy duty hand cleaner with moisturizers! The Lava Bar is a brand trusted by coal miners and oil rig workers for over 100 years. What's the secret ingredient? Pumice, a by-product of volcanic activity. The combination of pumice, cleansing agents, and moisturizers work to effectively remove the toughest soils.

\$1.49^{ea}
WD-10383

Perfect for workshops, garages, and a wide variety of industrial applications, this soap will leave your hands feeling clean and refreshed. While designed for heavy-duty applications, use this soap as you would any other bar of soap. Simply lather, rinse, and repeat if necessary - it is that easy!

WORKING HANDS HAND CREAM

A moisturizer that heals, relieves, and repairs extremely dry, cracked hands.

- Instantly boosts moisture level
- Creates a protective layer
- Helps prevent moisture loss

2.7 OZ. JAR
\$8.69^{ea}
OKE-K0270001

KILLEM™

16 OZ. TREATS 1,920 GALLONS
KILLS BACTERIA IN FUEL ON CONTACT

Killem™ is a water soluble product, EPA registered as a biocide for the control of bacteria and fungi growth in oils and refined fuels. Approved for use in California. Compliant with ULSD regulations.

\$23.59^{ea}
FPPF-00119

4 IN 1 HEATING OIL TREATMENT™

16 OZ. TREATS 275 GAL.

- Disperses water and controls waxing and gelling
- Improves combustion for more BTU's
- Removes varnishes from pumps and filters
- Prevents corrosion in the entire fuel system
- Cleans burner tips
- Helps stabilize fuel
- Prevents sludge
- Provides for cleaner burning, less smoke and a cleaner flame
- Can be used in bioheating oil

\$9.89^{ea}
FPPF-00161

LUBRICITY PLUS FUEL POWER™

32 OZ. TREATS 250 GAL.

Lubricity Plus Fuel Power™ is a year round diesel fuel treatment that combines the benefits of Fuel Power and a lubricity additive that exceeds the A.S.T.M. B.O.C.L.E. standards. Compliant with ULSD regulations.

\$12.89^{ea}
FPPF-00105

FUEL POWER + CETANE BOOSTER

32 OZ. TREATS 250 GALLONS

MORE POWER, FASTER STARTS AND BETTER COMBUSTION
Significantly raise the cetane level of your fuel providing faster starting, reduced engine noise, reduced smoke and particulates, and increased power and acceleration.

\$14.29^{ea}
FPPF-00188

MELT DOWN SOS

EMERGENCY USE ONLY

Specifically formulated to dissolve gelled fuel back into solution and return the flow in approximately 20 minutes. It will not harm fuel pumps, nozzles, or any pre-combustion components.

\$8.89^{ea}
FPPF-00124

SBG FUEL OIL SLUDGE REMOVER™

32 OZ. TREATS 1,000 GAL.

- Provides for more efficient combustion
- Cleans filters and strainers
- Helps improve atomization
- Helps stabilize fuel
- Dissolves all types of sludge into a combustible substance that will not clog nozzles

\$11.99^{ea}
FPPF-00342

FUEL POWER MAXIMUM FORMULA™ | MAXIMUM ALL-IN-ONE FORMULA, YEAR 'ROUND

Proven effective in ALL diesel fuels. Suitable for use in Jet A Fuel (ground equipment), #1 Diesel, Kerosene, Biodiesel Blends, and all other Fuel Oil applications.

No harmful alcohols. Diesel fuel is a combustible - Fuel Power Maximum Formula is a combustible and will burn with diesel fuel, without changing the ignition point of the fuel. Fuel Power Maximum Formula reduces pre-ignition and post ignition of the fuel, providing a more complete burn with less emissions, less carbon deposits, less engine vibration, a reduction in REGEN resulting in an increase in fuel economy, more power, faster start ups, less downtime and maintenance costs, and an increase in the longevity of equipment - saving you money!

12 OZ. TREATS 50 GAL.,

POLAR POWER™ | DELUXE ANTI-GEL AND WATER DISPERSANT

Eliminate water and gelling during the coldest winter months with FPPF Polar Power. This unique formulation combines all the benefits of FPPF Fuel Power with the most advanced cold flow improver on the market. Polar Power provides superior winter protection with improved low temperature handling characteristics. The way to avoid downtime when the temperatures plummet is to regularly treat your fuel with FPPF Polar Power. No more downtime due to cold.

- Hydrogen polar bonding
- Lowers cold filter plug point
- Pour point depressant

- Removes gum & varnish
- Water eliminator
- Wax dispersant

TOTAL POWER™ | THE ULTIMATE WINTER DIESEL TREATMENT

A combination of the best ingredients from other powerful additives make the ultimate year 'round formula. Total Power includes an injector cleaner, lubricity additive, cetane improver, water dispersant, fuel stabilizer, wax modifiers, and pour point depressant that lowers the CFPP (cold filter plug point) of the fuel. This can be used year 'round anywhere, in any climate.

Continued use of Total Power as a preventative additive will help eliminate bacteria growth, water issues, keep injectors operating at peak performance and so many other benefits.

- Alcohol free
- Cetane improver
- Corrosion inhibitor
- Fuel stabilizer
- Hydrogen polar bonding

- Increased fuel economy
- Increases fuel economy
- Increases combustion
- Long term stabilizer
- Lubricant

COLD WEATHER DIESEL TREATMENT WITH ANTI-GEL

Specifically designed to prevent cold filter plugging in diesel and bio-diesel fuels. Manufactured with the highest quality components to provide maximum performance. Key benefits include:

- Contains real water dispersants to effectively remove moisture from the entire fuel system
- Lowers the cold filter plugging point of ULSD and biofuels
- Prevents fuel thickening and gelling
- No alcohol
- Will not void warranties
- No harmful effect on diesel particulate filters
- Works to 10°F, a second bottle is recommended for temperatures below 10°F

DIESEL DEEP CLEAN

- Particulate filter cleaner and power booster
- Deep cleans the entire fuel and exhaust system
- Reduces particulate matter by up to 32%, helping to reduce the cost and aggravation of DPF maintenance
- Improves regeneration efficiencies
- Removes and dissolves harmful exhaust deposits that could plug the particulate filter
- Can be used full time

SAFEGUARD™

ETHANOL FUEL CONDITIONER WITH STABILIZER

- Stabilizes fuel and prevents varnish and gum formation in ethanol and gasoline
- Combats deposits and protects your engine oil lubricants from the harmful effects of alcohol combustion
- Treats up to 80 gallons of ethanol fuel
- 1 oz. treats 5 gallons
- Cleans injectors, valve seats, combustion chambers and other critical fuel components

16 OZ.
\$10.49^{ea}

TIRE REPAIR AND SUPPLIES

TIRE REPAIR MATERIAL

EURO-STYLE RADIAL REPAIR UNITS

- Each reinforcing ply is specifically end-cut and wrapped to "float" inside the patch to prevent end cracking or breakout common in competitive products
- Designed to vulcanize chemically, in low temperature, or high heat curing systems
- Premium blue vulcanizing gum, white backing

AR SERIES: These repair units are reinforced with aramid cord.

- Stronger than steel (pound for pound)
- Safer and easier to install than steel
- Easier to use in low profile tires
- Lightweight - no balancing distortion
- Reduces sidewall bulging

TIRE PRESSURE MAINTENANCE SYSTEM

The Cat's Eye makes it easy to see if your tires are under inflated. The bright yellow "eye" of the cat's eye opens up slightly if dual tire pressure falls 10-15% below the recommended pressure setting. The internal check valve will prevent the good tire from going flat in the case of a tire blowout or a broken pressure hose.

ON-BOARD BALANCING SYSTEM

FOR 22.5", 10 STUD WHEELS

Centramatic's "on-board" balancing system maintains a smoother ride while extending tire life by automatically balancing your tires and wheels while you drive. Simple to install and backed by a 5-year warranty. Centramatic balancers are proven to be the most effective way of keeping tire costs down.

PLUGS AND COUPLERS

AUTOMOTIVE / TRU-FLATE STYLE

This design is easily recognized because it has the shortest plug pilot in the industry; however, it has the widest metal section between the ball groove and the pilot. In addition, the sealing surface on the end of the plug is wider than other "interchange" designs. This design provides better sealing characteristics and longer seal life.

INDUSTRIAL / MILTON STYLE

This design has been adopted by many coupler manufacturers, including Milton, Hansen, Aro, Lincoln and Schrader. It will work with either "sleeve" type or "push" type couplers. No matter what the coupler looks like, if it mates with this plug, it is an "Industrial / Milton Interchange" design. It can be identified by its 3/16" pilot and its flat bottomed "v"-shaped ball groove. Conforms to ANSI (NFPA) T3.20.14-1990 dimensions.

1/2" Female NPT	XS-15-7152	1/2" Female NPT	XS-15-7156

ARO STYLE

This design is characteristic of the ARO-210 series, and requires a coupler of proper matching design. Although similar in appearance to the "Industrial / Milton Interchange" design, it can be easily distinguished because its pilot is 1/8" longer and its ball groove is nearly round.

1/4" PLUG / COUPLER SET

1/4" Female NPT	XS-15-7531	1/4" Female NPT	XS-15-7510

UNIVERSAL COUPLER

Now one coupler fits the three most popular air line plugs. This coupler can be used with Tru-Flate, Industrial / Milton and ARO Design 1/4" plugs. It eliminates confusion among designs. Quality, deluxe "push-to-connect" style makes coupling quick and easy. Unique tubular valve construction allows greater air flow.

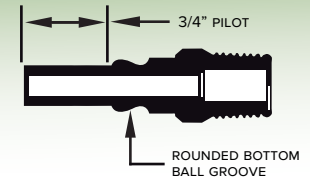

COUPLER	ITEM NUMBER
1/4" Male NPT	XS-15-7054
1/4" Female NPT	XS-15-7052

COMPATIBLE WITH:

- AUTOMOTIVE / TRU-FLATE STYLE
- INDUSTRIAL / MILTON STYLE
- ARO STYLE

LINCOLN STYLE

The "Lincoln Long-Stem" design is the most easily identified design. The long 3/4" pilot is so distinctive it cannot be confused with other designs. It will only mate with couplers of matching design and size.
