MICROFLEX[®]

MICROFLEX[®] gloves are synonymous with cutting-edge innovation, reliable quality, and superior performance. Their vast portfolio of industrial and medical examination gloves can be used in a variety of demanding work environments, ranging from factories and body shops, to dental offices, laboratories, and ambulances. For over 30 years, they have continued to develop high-quality MICROFLEX[®] solutions for every task and environment.

FIND YOUR FIT

To find your glove size, wrap a measuring tape around the widest part of your hand that's just below the knuckle and excluding your thumb. Then measure from the tip of your middle finger to the base of your hand. Use the larger of the two to determine your glove size. It's best to measure your dominant hand, so measure your right-hand if you are right-handed and vice versa.

XS	5½-6"	L	8½-9"
S	6½-7"	XL	9½-10"
M	7½-8"	XXL	10½-11"
